

UGI	Miscellaneous	Breast
Dysphagia	Genetics	Breast sepsis including implant
Oesophageal varices	Genric oncology	Breast disease
Boerhaaves	Reticuloendothelial	Aspirate breast abscess
Gastric dilation	MDT working	Removal of breast implant
GIST	Nutrition	Breast and Ax assessment
Lymphoma	Lymph node biopsy	Breast infections
Bariatrics	SPC	Breast cancer
GORD	Remote and Rural (Ophthalmology, skin grafts and gynaecology)	Oncoplastic breast surgery
Hiatus Hernia	System Specific Trauma	Breast reconstruction
Achalasia	NG tube	Breast flaps
Oesophageal perf		Benign breast problems
Oesophageal cancer	Vascular	Nipple smear
PUD	VTE	Core biopsy of breast
Gastric polyps	Aneurysms	Breast fistula
Gastric cancer	Mesenteric Vascular disease	Breast conservation
Gastrotomy	Acute limb ischaemia	Mastectomy
Gastrectomy	EXPOSURE AND CONTROL OF MAJOR PERIPHERAL ARTERIES	Axillary surgery
Endoscopy		Two stage reconstruction using TEX and subsequent exchange for FVI
Endoscopic mucosal resection	Paeds	Single stage reconstruction using FVI/TEX and biological & non biological mesh
Endoscopic stents	Abdo pain in children	Inferior dermal sling to achieve implant cover
Thoracoctomy and lavage	Intusseption	Techniques in capsulotomy, capsulectomy and revision implant surgery
Oesophagectomy	Groin conditions	Raising and inseting pedicled autologous TRAM flap
Antireflux surgery	Torsion	Raising and inseting pedicled autologous LD flap (including implant assisted LD)
	General surgery of childhood	Raising and inseting a local perforator flap
HPB	Vomiting child	Free-flap Techniques
Gallstones	Constipated child	Scar revision in aesthetic breast surgery
Pancreatitis	Abdo wall hernia	Correction of the inverted nipple (various techniques)
Pancreatic cancer	Child with groin condition	Bilateral breast reduction by various patterns and techniques
Pancreatic tumours	Childhood urology	Bilateral breast augmentation by various routes, in various planes
Cholecystectomy	Head and neck swellings in children	
Pancreatic trauma	Ingrowing toenail	
Liver trauma	Pyloromyotomy	
Liver mets	Orchidopexy	
Primary liver cancer	Manual evacuation	
Cholangiocarcinoma	Circumcision	
Gallbladder cancer	Hydrocele operation	
Benign liver tumours		
Pancreatectomy		
Liver resection		

Emergency	Colorectal	Transplant
Acute abdomen	Perianal sepsis	ACCESS FOR DIALYSIS
Emergency ambulatory care	Diverticulitis	Kidney transplant
Appendicitis	Volvulus	Principles of transplant
Obstructed hernia	Colitis	Pancreatic transplant
GI bleed	Hartmann's	Paediatric kidney transplant
Shock	Anorectal trauma	Liver transplant
Complications of surgery	IBS	Organ retrieval
Appendicectomy	IBD	Insert central venous dialysis catheter (tunnelled)
Laparotomy	Other colitides	Insert and remove peritoneal catheters
Salvage packing	Stomas	A-V fistula ligation
Small bowel resection	Colonoscopy	av fistula - Radio-cephalic, brachio-cephalic,
Adhesiolysis	Pilonidal excision/lay open	av fistula brachio-basilic, basilic vein transposition
Damage control	Haemorrhoidectomy	
Perforated viscus surgery	Segmental colectomy	Abdominal wall
Acute limb ischaemia	Anal sphincter repair	Abdo wall (non hernia)
Trauma principles	Colostomy	Recurrent hernias
Abdo and thorax trauma	Ileostomy	Hernias
Head and neck trauma		
Extremity trauma	Endocrine	Skin
Vascular trauma	Neck swellings	Haematoma evacuation
Colon trauma	Thyroid swellings	Biopsies (Breast/Neck/Subcut/LN)
Pilonidal disease	Parathyroid disease	Necrotising infection
Benign anal conditions	Adrenal swellings	Punch biopsy
Benign colorectal conditions	Pancreatic endocrine tumours	Skin excision
Rectal bleeding	MEN	Drain superficial sepsis
Anorectal trauma	Thyroid lobectomy	Excise necrotising infections
Colorectal cancer	Subtotal thyroidectomy	
Rectal cancer	Total Thyroidectomy	
Rarer colon and rectal tumours	Thyroidectomy - toxic goitre	
Anal neoplasia	Thyroidectomy :total + cervical node dissection - central/lateral compartments	
Presacral lesions	Thyroid surgery - reoperation	
Incontinence	Cervical approach to retrosternal goitre	
Rectal prolapse	Sternotomy for retrosternal goitre	
Constipation	Thymectomy - transcervical approach	
	Direct laryngoscopy	
	Parathyroidectomy	
	Parathyroid surgery - reoperation	
	Laparoscopic/retroperitoneal Adrenalectomy	
	Open adrenalectomy
